

Oldenburger Interior GmbH & Co. KG manufactures furnishings for exclusive living spaces in yacht, store and aircraft construction in its three divisions. From the construction of elaborate designs, through manufacturing, to worldwide "turnkey" installation on site, we as a company offer all the building blocks for an efficient project process and a fascinating result.

To strengthen our team, we are looking for a

Working student/Trainee for the IT department (m/f/d),

for the next possible date, who wants to use her/his IT skills and support us in setting up an internal information system. In our innovative team, we offer the opportunity to participate in exciting projects and actively contribute to the success of our company.

Your area of responsibility:

- Technical specification/selection of an internal information system
- Installation, migration and subsequent introduction of an information system
- Training of employees in the new information system
- Documentation of the work results

Your profile:

- Ongoing studies or training in the field of computer science or comparable degree programmes
- Programming skills are an advantage
- Experience in app design is an advantage
- Analytical thinking skills
- Ability to work in a team, personal initiative and communication skills

Your perspective:

- Insight into IT processes
- Collaboration in a motivated team
- Practical experience in a future-orientated company
- Flexible working hours and opportunity for further development
- Qualitative induction training by a mentor
- Opportunity to complete an internship semester at our company
- Opportunity to write the Bachelor's thesis at our company

Are you motivated, goal-orientated and enjoy working in a team? We look forward to receiving your detailed application.
